

TIRED OF GETTING THE FINGER

when you have a business communication problem ?

Telephone Equipment
Network Services

Telephone Company
Internet Provider

NEED SOLUTIONS ?

Fire Department is fed up with getting the finger!!!

On behalf of the Westport Fire Department, I would like to thank you for your help resolving the Departments call-waiting issue with (service provider). As you know **this was an ongoing issue for over 16 years.** You quickly recognized the problem and worked with **(service provider) to finally fix the problem.** Several technicians have tried to fix this **problem in the past resulting in us being told it was not a "phone company problem".** You took the time to help us when we were not even a customer so I am convinced that the service will even better once we are. **Thank you again for resolving a 16-year old problem that no one else could solve.** Fire Chief – Westport, MA 12/1/06
